Mark your calendars for the highly anticipated Third IFIP TC 8 DICTDR International Conference on "Information Technology for Disaster Risk Reduction and Resilience" (ITDRR 2024), taking place from July 15-17, 2024, at the prestigious IFIP 24th World Computer Congress (WCC) in Dublin, Ireland.

ITDRR 2024 is a premier international forum for researchers, practitioners, policymakers, and stakeholders from academia, industry, and government to engage in cutting-edge research and discussions on the vital role of information and communication technologies (ICTs) in disaster management, risk reduction, and resilience.

Conference Tracks

The conference will feature a diverse range of tracks covering the latest advancements and emerging trends in disaster management and resilience:

- Disaster Risk Management and Mitigation

- Disaster Preparedness and Response
- Disaster Recovery and Reconstruction
- Disaster Risk Communication and Education
- Disaster Resilience and Sustainable Development
- ICTs for Critical Infrastructure Protection

Target Audience

ITDRR 2024 is designed for a wide audience, including:

- Researchers and academics working in disaster management, risk reduction, and resilience
- Practitioners from disaster management agencies, emergency response organizations, and humanitarian aid groups
- Policymakers and government officials responsible for disaster risk management and resilience policies
- Technologists and solution providers developing ICT solutions for disaster management
- Graduate students and early-career professionals seeking to advance their knowledge in disaster management and resilience

Benefits of Attending

By attending ITDRR 2024, you will gain invaluable insights and opportunities:

- **Learn from world-renowned experts:** Engage with leading researchers and practitioners showcasing their latest findings and best practices in disaster management and resilience.
- **Discover cutting-edge research and innovations:** Explore emerging technologies and innovative solutions for disaster risk reduction and resilience.
- **Network with professionals from diverse fields:** Connect with a global community of experts and practitioners to foster collaboration and exchange ideas.
- **Contribute to policy and decision-making:** Influence the development of policies and strategies for disaster risk reduction and resilience.
- **Advance your career:** Gain knowledge and skills to enhance your professional development in the field of disaster management and resilience.

Call for Papers

Researchers and practitioners are invited to submit their original research and case studies for consideration. The deadline for paper submission is **November 15, 2023**.

For more information and submission guidelines, please visit the conference website at www.itdrr2024.org.

Join us at ITDRR 2024 for an extraordinary opportunity to advance our understanding of disaster management, risk reduction, and resilience.

Together, we can harness the power of technology to create a safer and more resilient world.
