This book explores the complex relationship between religion, politics, and refugee resettlement in North America. It examines how religious and political factors have shaped the resettlement experiences of refugees in Canada and the United States, and how these experiences have in turn influenced the religious and political landscape of both countries.

The book is divided into three parts. The first part provides an overview of the history of refugee resettlement in North America, and the role that religion has played in shaping this history. The second part examines the

specific resettlement experiences of refugees from different religious backgrounds, including Christians, Muslims, and Jews. The third part explores the impact of refugee resettlement on the religious and political landscape of North America, and the challenges and opportunities that this has created for both countries.

This book is a valuable resource for scholars and policymakers interested in the intersection of religion, politics, and refugee resettlement. It is also a timely and important read for anyone who wants to understand the challenges and opportunities facing refugees in North America today.
